Isabelle Baissac ND BHSc Nat

Isabelle has been a practicing naturopath for the last 11 years, after being introduced to natural medicine in South Africa, her home country, she moved to Australia to pursue a career in natural medicine. Graduating in 2006 with a Bachelor of Health Science in Naturopathy, she opened a successful naturopathic practice in Brisbane.

Her interests lie in both herbal medicine and nutrition and she has worked concurrently for BioCeuticals for over five years.

Paul Kern Adv Dip. Nat

has been a practicing Naturopath for the past 23 years. Since 1993 he has been in practice, as a fully qualified Naturopath using, Nutritional and Herbal medicine to address many complex health issues. For over 17 years he has also been delivering highly informative seminars to Doctors, Chiropractors and Naturopaths around Australia and New Zealand. Paul has lectured in several Australian colleges, in Physiology, Toxicology, Nutrition, Herbal and practice. His experience offers seminar attendees a greater insight into the use of Naturopathic techniques and supplements to bring about true, lasting health change in challenging clinical cases.

Dr Sally Price MBBS; FRACGP; Dip RACOG; FACNEM; Grad. Dip. Primary Health Care.

Dr Sally Price is a Functional Medicine practitioner, speaker, health coach, mentor and teacher who enjoys educating health professionals and the general public.

Dr Price qualified in Medicine at St Bartholomew's Hospital in London before coming to Australia where she undertook General Practice training, gaining the FRACGP. She has worked in Alice Springs, Darwin, Melbourne, Newman and Rottnest Island before settling in Bicton. Study continued in Ayurvedic medicine and other natural healing approaches, completing Fellowship of the Australasian College of Nutritional and Environmental Medicine in 2012.

Dr Price's recent focus in her busy practice has been the impact of the gut microbiome, in particular its impact on anxiety and depression. It has been very rewarding in practice to see how patients can improve with nutrient power and a functional approach.

Dr Price lectures for the Australasian College of Nutritional & Environmental Medicine, and was an invited speaker at the inaugural Australasian Society for Lifestyle Medicine conference in 2016. She has presented public educational talks and appeared as a Q & A panellist for the WA screening of the "Whats with Wheat" Documentary.

Dr Price has provided afternoon workshops for clinicians on The Gut Microbiome and Epigenetics; mentored Health Professionals, and convened day workshops bringing Eastern States experts to the WA clinician audience.

NP Jille Burns BAppSc, PGradDipHlthSc, MNurs (Nurse Practitioner)

Jille Burns is a Nurse Practitioner, author, speaker, health coach and professional mentor who thrives on educating and empowering people to make healthier choices in their day-to-day lives. In addition to a Bachelor of Applied Science and Post Graduate Diploma in Health Science, Jille also holds a Master of Nursing (Nurse Practitioner) and further qualifications in self-management and nutritional and environmental medicine. Jille's areas of interest and expertise include lifestyle medicine, nutritional and environmental medicine, and preventative health care with a special interest in cardiovascular risk factor management and dementia prevention.

Jille lectures for the Australasian College of Nutritional and Environmental Medicine. In her mentoring role she provides clinical supervision & training for nurse practitioner interns at Curtin University. For the triennium 2014-2016 Jille created and successfully coordinated a nutritional medicine course for the Royal Australian College of General Practitioners.

Founder and Director of Healthy Vitality Nutritional Medicine and Lifestyle Support, Jille provides public talks, continuing professional development for clinicians and consults both locally and nationally from private practice in Fremantle Western Australia.
